JACKSONVILLE, ILLINOIS, TUESDAY MORNING, JUNE 21, 1904.

DAY SPENT IN CAUCUSING

MEETINGS HELD BY STATE DELEGATIONS

Day Preceding Republican National Convention a Quiet One—“Indiana Puzzle” Feature of the Day.

Chicago, June 20.—With time occupied in caucuses of state delegations, which, with a few exceptions, were mere ratification meetings held to approve state convention programs, the day preceding the opening of the Republican national convention has been the quietest ever known as the forerunner of similar gatherings. Senators and representatives in congress were as thick on the streets and in hotel lobbies as in the national capital when particularly uneventful or dry debates occur in congress.

Figures prominent in political strife of former national conventions were everywhere. They mingled with delegates and others not on the inside, talking of anything which promised even momentary interest.

When the leaders reached Chicago a few days ago they found nothing to do. The program was mapped out weeks ago and there was full realization it was unalterable. The principal diversions were offered by the caucuses of Iowa, Illinois and Washington delegations. Governor Cummins presented to the hawkeye delegation the “Iowa idea” in an entirely new dress. It was in the form of a plank setting forth the “idea” as a declaration for reciprocity and reduction of tariff schedules. It was rejected and this constituted its death knell so far as the present convention is concerned.

In the Illinois caucus the contest was for the chairmanship of the delegation. Senator Cullom was opposed by the Yates faction, but won out handily. It is conceded his defeat would have prevented his re-election to the senate.

In the Washington caucus Senator Anthony was elected national committeeman against the combined opposition of former Congressman Ashton and J. S. McMillan, both of whom were candidates for the position.

What has been popularly termed the “Indiana puzzle” was one of the features of the day. Members of the Indiana delegation met to determine their course in regard to the boom for Fairbanks for the vice presidency. Fairbanks attended the meeting and addressed the delegates. He talked fifteen minutes, the meeting adjourned, and the delegation was no wiser concerning his wishes, beyond reiteration of his statement that he did not desire his state to present his name for the vice presidency.

Expressions of genuine regret at the absence of faces familiar at similar gatherings are heard on every side. Men who have played leading roles in the art of making tickets and platforms, men whose personality, shrewdness or qualifications of persuasiveness have changed entire states or sections of country, are missed in the hotel lobbies and various headquarters. One whose absence is felt more perhaps than that of any other man is the late Senator Hanna. Numerous pictures of the late senator attest his popularity.

But the absence of some great men does not indicate the last play which opens at the Coliseum to-morrow has been weakened. In the shoes of men who have passed away are politicians equally as astute, who have had their training at master hands. They may not be so well known in national affairs and their names not so effective to conjure with, but they are ready and competent to perform any task that offers. The only difficulty is the task is not there. Contests worthy of the name are utterly lacking. The fight between the La Follette and “stalwart” factions in Wisconsin, the contest between the Addicks and anti-Addicks factions in Delaware, and “illy white” and “black and tan” factions of the south were disposed of with so much dispatch that they failed to furnish gossip necessary to an interesting convention. About all that was left to feed the craving of delegates for excitement and furnish a topic of conversation was the question of how long time.

INDIANA DELEGATION.

When the Indiana delegation met Senator Fairbanks was made chairman. No mention was made in the meeting of the subject of the vice presidency. It is understood silence on this point was due to a request from the senator himself, who still adheres to the determination to do nothing that would look like seeking the position.

The delegation discussed the vice presidential nomination of Senator Fairbanks this afternoon. At the close of the meeting it was stated the delegates were without definite plans, but that Indiana would be pleased to have Fairbanks nominated. Senator Fairbanks made a speech at some length, saying he had not been a candidate and was not a candidate now; that he had been used to become a candidate, and that he had not changed his position from the time he was first mentioned for the place. The senator

would not be put in the attitude of seeking the place. Members of the delegation said that the senator would accept, but it was not the intention of Indiana to present his name to the convention.

IOWA DELEGATION.

The Iowa delegation met and organized to-day, Senator Allison presiding. J. W. Blythe, of Burlington, was chosen member of the resolutions committee, Senator Dolliver of the credentials committee and J. H. Henderson, of Indianapolis, of the permanent organization committee. E. E. Hart will be again recommended as a member of the national committee. Governor Cummins was made honorary vice president of the convention, and ex-representative George Curtis, of Clinton, member of the committee to notify the president of his nomination. E. E. Clark was elected secretary of the delegation.

After organization was concluded Cummins presented his “idea” concisely embodied in a set of resolutions. After discussion of an hour and a half the resolutions were laid on the table by an overwhelming vote. It is understood Cummins will advocate the “idea” on the floor of the convention in supporting the Hansbrough resolution for tariff revision and reciprocity.

LONG’S CANDIDATE.

Ex-Secretary of the Navy John D. Long to-day authorized the Associated Press to announce his candidate for the vice presidency was Secretary of War Taft, whom he regards in every way the most available and best man for the office.

CONVENTION NOTES.

New Hampshire, Texas and Delaware delegations to-day endorsed Senator Fairbanks for the vice presidency.

The Kansas delegation elected T. H. Smith member of the resolutions committee and D. W. Mulvane member of the national committee.

A vigorous campaign has been inaugurated by the unseated “illy white” delegation from Louisiana to have the committee on credentials reverse the action of the national committee. Ex-Governor Warmouth of Louisiana, in charge of this campaign, is authority for the statement National Committeeman Harry S. New told the national committee Indiana would be best to the Republicans if the “illy whites” were seated. It is found difficult to combat the effect this statement has made on the minds of the men who will make up the credentials committee.

After a protracted caucus to-night, during which much feeling was engendered, Senator Levi Anthony was elected national committeeman from Washington by the delegates from that state. The delegation adopted a strong resolution in favor of a plank declaring for merchant marine.

The Kentucky delegation postponed until Wednesday action regarding choice for the vice presidency. All but one favor Fairbanks.

Florida has endorsed Fairbanks for vice president.

Rhode Island is toward Hill, but if Massachusetts goes for Fairbanks Rhode Island will probably follow suit.

The Wisconsin delegates voted at their caucus to give a complimentary vote for former Governor Schofield for vice president. The delegation looks upon Fairbanks as the probable nominee, but it is not committed to any candidate. Senator Quarles was elected chairman of the delegation, Spooner as Wisconsin member of the committee on resolutions and Postmaster General Payne re-elected national committeeman.

The Maine delegation to-night voted unanimously in favor of Fairbanks for vice president.

New York state delegates in caucus to-night instructed Senator Platt to cast his twenty-eight votes for Theodore Roosevelt of New York for president and Charles W. Fairbanks of Indiana for vice president. The meeting was very harmonious. Governor Odell personally named Platt as chairman of the delegation and moved that he be allowed to cast New York’s vote as a unit on all propositions. When the governor moved New York instructed for Fairbanks for vice president there was a cheer and it was unanimously adopted.

Senator Depew was chosen chairman of the caucus, Senator Platt to cast the vote of the delegation and William L. Ward to be national committeeman. Brooklyn delegates were absent, but it was understood they were being dined and that they had previously acquiesced in the program followed by the delegation.

After the New York state delegation had adjourned with three cheers for the ticket there came the first enthusiastic incident of the day. Depew, trying to pass downstairs, was intercepted by a crowd of delegates, among which were many Indiana men. Compelled amidst great cheering and the music of a band to speak, Senator Depew said:

“We of New York have held a convention which will be ratified to-morrow and the next day. We have nominated Theodore Roosevelt for president and Charles W. Fairbanks for vice president and they will be endorsed. We have written a platform of principles, and that will be ratified to-morrow or next day. We are the people who have received grace and are absolutely sure of salvation. (Laughter.) Our convention is quiet simply because a certainty produces no excitement. In a convention when there are riot and fight they fear public opinion. I have never seen more harmony than that at the New York meeting to-night. That is important because as New goes, so goes the nation.”

PROTECTION DECLARATION

WILL BE EMPHATIC IN PLATFORM

Opinion Is Tariff Revisionists Will Secure Little Comfort From Committee—Other Propositions Suggested.

Chicago, June 20.—The men who are to examine the platform which has been in possession of Senator Lodge several days have been elected by various state delegations and there is practically no doubt the declaration for protection will be emphatic and there will be but little comfort for tariff revisionists. A pledge to make changes in schedules when such changes are necessary is the only concession to be made by the “stand patters.” Possibly the wording will be changed among those who have been talking of revision will secure the use of the word “revised” to express the idea to be conveyed, but even this is considered doubtful. A majority are against having anything like general revision of tariff suggested and will contend for the words “changes in tariff schedules” when “conditions make it necessary” as ample to cover all intended by the Republican party. Senator Hansbrough, who intends to offer a provision for a revision declaration, has not received much support.

The proposition to incorporate an anti-politicism resolution in the platform is opposed by Senator Smoot on the ground it will be used to his disadvantage in the senate. It is also felt such a declaration might materially injure the Republicans in several western states.

Several other suggestions not now contained in the prepared draft of the platform will be made. One declares for international arbitration; another urges the interstate commerce commission be given more power to enforce its decisions.

THE LIST GROWING

Ninety Three Bodies of Victims of Steamboat Disaster Re covered Monday.

New York, June 20.—The list of those who perished on the General Slocum is growing at an alarming rate. Bodies came to the surface to-day until at dusk ninety-three additional had been recovered. This brings the total bodies recovered up to 725, and yet there are 300 persons unaccounted for. The coroner’s inquiry into the disaster was begun to-day. A number of witnesses were examined, but there were no new developments.

BUILDING COLLAPSED.

Kansas City, June 20.—The four-story brick occupied by the Black Syrup and Refining company partially collapsed to-day, the result of an ammonia explosion. Fifty girls and several men were thrown into a panic. Three girls and one man were seriously hurt. Two men are still buried in the debris.

PARKER’S OPPONENTS

Bryan the Principal Speaker at Meeting Held in New York.

New York, June 20.—Cooper union was crowded to-night at an anti-Parker convention. William J. Bryan was the principal speaker. He made a savage attack on the “reorganizers” and vigorously opposed the nomination of Judge Parker, who was held up as the candidate of the corporations, imperialists and monopolists. Resolutions adopted declare among other things:

“Judge Parker is silent. Senator Hill speaks for him. We know Senator Hill’s record. As governor of New York he blocked the secret ballot. As senator he opposed his party’s position on the tariff and income tax. The people of New York expressed their opinion of Senator Hill when he was beaten for governor in 1894 by 156,000 votes. Neither harmony, confidence nor success can now follow his discredited leadership.”

Bryan’s speech was a severe attack upon Parker and those who are supporting his candidacy, and declared the campaign had been a fraudulent one and charged that conventions shall not be bought in Parker’s interest. Bryan declared:

“I was not defeated by the principles of the Chicago and Kansas City platforms, but because I had to carry the sins of a traitorous president who betrayed his country, and concluded: ‘Parker is traveling as a negative quality. He stands for nothing positive. He reminds me of the story of the man in praise of a child who said that it looked and breathed. So Parker looks at great financial lights and breathes.’”

BURNED TO DEATH.

Cleveland, June 20.—Six persons were burned to death and two others injured in a fire that partially destroyed a saloon and boarding house in Columbus street to-day.

VICE PRESIDENCY

The Nomination of Senator Fairbanks Assured by Action of New York Delegates.

Chicago, June 20.—The nomination of Senator Fairbanks for vice president was regarded as settled to-night when New York decided to cast her seventy-eight votes for him. While it has seemed a foregone conclusion for some time that the Indiana senator would be Roosevelt’s running mate there have been efforts made to bring out other candidates and start a stampede for some other man. These attempts failed almost in their inception and it early became apparent that Fairbanks was the choice of most of the delegates. New York’s action was more formal than that of other states and practically settled all doubt, even among those who opposed the Indiana man.

Considerable criticism has been directed at Fairbanks because of his failure definitely to declare his position. All that it has been possible to obtain from him was a statement that he did not consider the honor one which a man should seek or decline and that if the party wanted him and needed him he would accept, although he was not a candidate and would not allow the Indiana delegation to express itself in favor of his nomination. This attitude seemed to irritate some of the leaders, who saw no reason why the senator should not come squarely with a formal statement.

Indiana having decided not to present Fairbanks’ name, Alabama may do so. Complimentary ballots will be cast for many favorite sons, although it is known the Indiana senator will be nominated. Colorado will vote for John W. Springer; Illinois for Robert R. Hill; Missouri for Criss P. Wallbridge; Nebraska for John L. Webster; Wisconsin for former Governor Scofield. No doubt before the ballot is completed all these states will change and cast their votes for Fairbanks, making the nomination unanimous.

WISCONSIN FIGHT

“Stalwart” Faction Is Beginning to Show Alarm.

Chicago, June 20.—The “stalwart” faction in the Wisconsin fight are showing alarm to-night at an entirely new phase of the situation. They say La Follette’s lieutenants have spent the day in a vain search for a single member of the credentials committee who will shoulder the task of making a minority report in case the majority favor the “stalwarts.” This failure has discouraged the La Follette faction. It is reported, to the extent of abandoning the contest even before the committee. Should this be done they could go before the Wisconsin voters with the claim of unfair treatment as having been denied a hearing at the hands of the convention. It will be much more desirable to the “stalwarts” to have the La Follette grievance thoroughly aired in the convention and then voted down than to have their case settled by default. This phase of the situation is to be made the subject of a conference among the “stalwart” leaders and it may not be impossible that a member of the credentials committee may be found who will volunteer to make a minority report to the convention.

SULLEN AND SILENT

Strube, Slayer of Alice Henninger, Appears Indifferent as to Result of His Trial.

Havana, June 20.—With the same sullen silence that has characterized his actions since his incarceration in the Mason county jail Fred Strube, who, according to his own confession, murdered Miss Alice Henninger under most atrocious circumstances, is awaiting his trial, which is only forty-three days away.

The young man refuses to say any one and will not talk except in monosyllables. When a visitor appears at the jail he slinks away into the farthest corner and refuses to come forth, no matter how much persuasion is used. He is content to eat just what the prison authorities give him and never makes a request for anything, whether food or clothing.

The people of Havana have ceased to talk about the Strube case. One never hears his name except from strangers. When asked what he thinks the punishment will be the citizen of Havana promptly answers that he does not know. The only defense which Strube’s attorneys, H. W. Masters, of Lewistown, and Lyman Lacey, Jr., of Havana, will make will be that of insanity. When Masters made his argument to the court for a continuance last February he said that if Strube was in his right mind when the deed was committed he would stand as one of the most diabolical criminals in history.

His only plea was that if the prisoner was insane at the time of the commission of the crime his attorneys ought to have time to collect the evidence. The story that Strube attempted to escape from the Mason county jail is without foundation. The sheriff says he believes the young man would make no effort to get away if the doors of the jail were left open. He seems to be in a stupor and absolutely indifferent.

BURNS’ ACTION REPUDIATED.

Colorado Springs, Colo., June 20.—The directors of the Portland mine repudiated the action of President Burns in entering suit in connection with the closing of that property by military and declared the suit off. They also passed a resolution opposing the employment of men affiliated with the Western Federation.

Appleton, Wis., June 20.—The Tissue company succeeded in running one machine to-day and will start another in a few days. To-night when the men left work strikers gathered around them and it was necessary to have police protection. At Neenah a nonunion employee was severely beaten by strikers. The Howard Paper company at Manassas, which said it could start at any time, has given up, and to-day placed a ten-foot fence around the mill and closed indefinitely.

AN AWFUL DEATH

Springfield Boy Killed by C. P. & St. L. Train at Havana.

Havana, June 20.—Albert Adams, aged 15 years, residing in Springfield, was ground to pieces beneath a Chicago, Peoria & St. Louis freight train at 7 o’clock Sunday morning at this place.

The youth, in company with his brother, was en route to Peoria, where they had been offered positions. They were riding on a flat car loaded with bridge timbers. The sudden application of the air brakes caused the train to jerk suddenly and young Adams was thrown underneath the wheels.

His brother made an effort to catch him, but was not able to stay him. The boy’s head was severed and the right arm and both legs were cut off.

The remains were removed to a local undertaking establishment under the orders of the coroner. The coroner’s inquest absolved the railroad company from all blame.

The remains were taken to Springfield, where the young boy’s mother resides.

AMERICAN CORRESPONDENT

TELLS OF SITUATION AT PORT ARTHUR

Says Place Is in no Immediate Danger of Falling in Hands of Japanese—Blockade Is Ineffective.

Indianapolis, June 20.—The News has received the following cable from Hector Carter, its special correspondent, at Chefoo:

“After spending five days in a Russian prison I was released, put on board a Chinese junk and sent here. Stories of starvation in Port Arthur spread by Japanese are untrue. Stores and supplies are constantly arriving there from Chinese ports.

“The Japanese blockade is ineffective. The garrison consists of between 50,000 and 60,000 troops and health of soldiers and civilians is good. The damaged battleships all have been repaired and the harbor entrance cleared of obstructions. Immense new forts have been constructed and the place is in no immediate danger of falling into the hands of the Japanese.

“The Japanese attack by land and sea made on the 8th instant was easily repulsed. I was the first correspondent to enter Port Arthur since the blockade began.”

KUROPATKIN’S REPORT.

St. Petersburg, June 20.—The emperor received the following from Kuropatkin: “The enemy in the direction of Salmatze and Feng Wang Cheng have not only stopped, but have made a retrograde movement. They have evacuated several points toward the north of Feng Wang Cheng which until recently they occupied. The movement of Japanese troops toward the Dalnie delie has been stopped, but a rather important movement of Japanese forces has been discovered in the direction of Su Yen and Hai Cheng or Su Yen and Tashichiao.”

Under date of June 20 Vice Admiral Skrydloff telegraphs:

“The cruiser division has returned to Vladivostok without losing any men or sustaining any damage.”

COMBINED ATTACK.

St. Petersburg, June 20.—The general staff believes it probable that Kuropatkin and Oku are meditating a combined attack on Kuropatkin before he is further reinforced. There is a rumor here to night that a battle at Hai Cheng is actually proceeding and that there have been heavy losses on both sides. There is no confirmation of this rumor.

It has developed that the Japanese at Vafangow had an accurate topographical map of the whole battlefield and their batteries were connected by telephone.

WAR REPORTS.

Tokio, June 20.—General Oku reports he buried 1,516 Russians after the battle of Vafangow and the work was then incomplete. Natives say the Russians either buried or carried away many of their dead.

St. Petersburg, June 20.—The provincial consultative committee has been summoned by the emperor to discuss reforms for peasants.

Liao Yang, June 20.—A correspondent of the Associated Press who spent the night at Hai Chen heard heavy firing from 10 until 2 this morning to the southward and believe it was either an attack upon Ta Shi Hia or the Japanese fleet again bombarding the coast near Kalping.

London, June 20.—The correspondent of the Central News at Mukden says it has been officially announced there that the Russian loss at the battle of Vafangow was about seventeen officers and 519 men killed; ninety-seven officers and 1,583 men wounded; twelve officers and 733 men missing.

ARRESTED FOR THEFT

William Ankrum, Employed by P. D. Trotter Takes Money and Jewelry—Captured by Officer Preston—Later Sent to Jail.

Saturday a young man giving the name of William Ankrum was in town and hired to Peter D. Trotter to work on the farm and went out Saturday night but Sunday he concocted a plan whereby he might replenish his exchequer in an easier manner than plowing corn, so he went to the money drawer of Mr. Trotter and stole \$7 and took in addition a razor. Then he went to the possessions of Samuel Frances and took a watch for which the owner valued highly, as it was made of foreign coins. Ankrum came to this city on the C. & A. train Monday morning and as soon as the theft was discovered Mr. Trotter at once notified the police to be on the lookout for Ankrum, a description of whom could be had of Joseph Brecken, J. A. Preston, of the police force at once set out to look for the offender and found him in a short time. He had gone to the Washburn and bought a ticket for Decatur and checked his baggage. He was taken before Squire Henderson, and waiving examination was bound over in \$50 bail, lacking which he went to jail. He gave up the razor and fob but declined to part with some five or six dollars and a railroad ticket. He looks like a person not accustomed to such deeds and it seems strange that he should have stolen the property and then taken no more pains to conceal his whereabouts.

AT THE LAKE.

Fishing in the lake has been begun with a vengeance and if the fish are not careful they will be caught. The embargo should have continued until the first of July as a good many yet are found with eggs in them but people are impatient. Some fine ones have already been caught and if only the lake were ten or twenty times its present size what a splendid opportunity the people of Jacksonville and adjacent territory would have for the sport. As it is, however, they will have to be satisfied with lesser extent of water. Ernest Laboye's son caught a drum head perch weighing seven and three-quarters pounds, many other kinds were taken weighing three and four pounds. Now if all will strictly obey the laws and regulations regarding one hook to a person, use no snags, dynamite or unfair methods there may be a great deal of sport until cold weather.

NEW SPRINKLER DEVICE.

Ed Henry, formerly of this city, but now located in East St. Louis, is visiting George W. Scott and family on South Fayette street. Mr. Henry has recently patented a compressed air street sprinkler, and will soon have it on exhibition at the world's fair.

The invention promises to eclipse anything of the kind ever made heretofore according to those who have seen it work. It will throw a spray, evenly distributed, as far as 100 feet at any angle, or as short a distance as desired. It is easily worked and is always under perfect control of the operator. It promises to revolutionize the business of street sprinkling. Mr. and Mrs. Albert Woods and baby, of Beaumont, Texas, have gone to Merced, where they intend to reside, after a pleasant visit with their sister, Mrs. Gate Williams, of North Sandy street.

Mrs. Lizzie Dyer has returned home after a visit with friends in Peoria. Miss Club No. 7 met in regular session with Mrs. Charles Berry on North Sandy street. Sunday afternoon, June 18. After service, the ladies of the church were served and enjoyed a pleasant time.

Gaunt, Thin Persons Are Cannibals

When your stomach stops digesting food you become a cannibal.

Your life is sustained at the expense of your own flesh and blood. Your heart, the dynamo that runs the human machine, cannot obtain power from food the stomach does not digest, and is compelled to eat tissues and muscles.

So the body becomes gaunt and thin; face, haggard; eyes, sunken; skin, yellow and blotched. Weakness, irritability, sleeplessness and melancholia follow.

The common stomach trouble is dyspepsia. Nine of every ten people have it.

Reall Dyspepsia Tablets will cure your dyspepsia quickly and permanently.

The first tablet brings freedom from shortness of breath, nausea and dizziness.

Within a week your stomach will be digesting food properly, and your blood at work putting flesh on your emaciated frame and the color of health into your sunken cheeks.

We know positively that Reall Dyspepsia Tablets will make life worth living for you; will make you strong and well; will give you muscles to do your work and an active brain to direct them.

Reall Dyspepsia Tablets do this by supplying the active principle of digestion, the absence of which in the gastric juices caused all the trouble. They enable your stomach to extract every particle of nutriment from food and to convert it into rich, red blood. We guarantee all this.

Made Mr. Driscoll Strong and Well

"My husband has been a great sufferer from dyspepsia in its worst form. He was greatly run down and could eat very little without the most distressing nausea and dreadful distress in the stomach. He tried everything he saw advertised without getting any relief. Through the advice of a friend he decided to use the Reall Dyspepsia Tablets, and to-day he is strong and well and able to eat whatever his appetite craves. I cannot speak too highly of them.—Mrs. F. J. DRISCOLL, 132 First Street, Leominster, Mass."

Price 25 cents per package, only at our store or by mail.

Jacksonville, Ill., Aug. 24, 1901.—For twelve years I have suffered from sweet diabetes and have spent hundreds of dollars with various doctors, with but little benefit. I was recommended to try a bottle of Texas Wonder, Hall's Great Discovery, and will cheerfully testify to the public that it did me more good than all things else put together and am altogether another man. I have persuaded many of my friends to try it.

The balance of trade in favor of the United States for the nine months of the fiscal year is something over \$422,000,000.

Dowdites are to boycott the St. Louis fair. The fair officials have decided, however, to go ahead and try to make the fair a success anyway.

The chief engineer of the Panama canal is to receive \$25,000 a year. This is not too much if he is a good one and anything is too much if he is a bad one.

A preacher says St. Louis is more wicked now than Rome or Babylon ever was. But a good many people will insist on going and seeing for themselves.

One war and six revolutions are now going on in South America and the West Indies. This being the hot season, things are naturally rather dull down there.

Russia declares she will remain free to impose such terms of peace as she pleases. This is the same nation that robbed Japan after she had beaten China.

President Cunningham is said to have cost the rural mail carriers \$120 each. Had he not been too eager congress would have voted the carriers a salary of \$840 instead of \$720.

Crazy Snake, full blooded Creek leader, advises his followers to disband. He has been trying to shove the white man's government off the map, and has found the contract too big.

Although Panama has not seen fit to adopt the financial standard of the United States, the fact remains that she has not manifested the slightest disinclination to pocket the \$10,000,000 in the coinage of Uncle Sam.

The United States census bureau has begun the work of gathering statistics of special classes of population, including penitentiaries, almshouses, insane asylums, etc. Director North has appointed about 7,000 special agents for this purpose.

It costs \$20 to get into all the shows on the Pike at St. Louis. No man has as yet been willing to tell how much it costs to get out.

DENEEN FOR GOVERNOR.

The Beardstown Illinoisan Star says: "Deneen for governor is a man of convictions and of a positive character. His antecedents belong to an industrial and intelligent class. The writer was for several years associated with his father, who was a professor of languages in McKendree college, perhaps one of the best linguists in the west. The grandfather was an intelligent civil engineer. None of the family were addicted to the use of tobacco, liquor or profanity. We make these statements in view of the fact that when a man is nominated for a prominent position some one labors hard to besmirch his character. His record for states attorney for Cook county for two terms is one of executive ability. His re-election in 1901 by a vote of 10,000 more than that of McKinley shows his popularity with the voters."

NEW LEADERS OF DEMOCRACY

Robert Adamson in the July "Success" Tells of Men Foremost Among Democratic Hosts—Time Has Wrought Changes.

In the first place, it should be stated that the personnel of the Democratic convention will be vastly changed. In a double sense the assembly will pass the party from one generation to another. It will transfer the issues as well as the reins, and the foremost parts in that gathering, which now promises to be historic for the party, will be played either by actors entirely new or by those who have been relegated to obscurity for eight years. Four years ago the only wish consulted was Mr. Bryan's, and he governed the convention from Kansas City at his pleasure. This year, reduced to the ranks, he will lead the remnant of his following which Mr. Hearst has been able to hold together. It will be a curious situation, presenting the broadest contrasts. On one side of the hall, under the flag of the radical young editor, will be ranged such famous lights of other days, survivors of the Bryan idea and Populist party, as the popular and flowery General James B. Weaver, twice a candidate for the presidency himself; the vociferous Alexander Troupe, the fighting New Haven editor, and friend of Bryan "in the enemies' country"; James M. Griggs, of Georgia; James G. Johnson, the national committeeman from Kansas; John J. Fitzgerald, the flaming young radical from Rhode Island, and a host of mining and agricultural statesmen and doctrinaire publicists whose dearest antipathy is the money ridden east.

On the other side, probably in control at the opening, will sit the men who have been politically submerged for eight years—David B. Hill, who was hissed and howled at at Chicago, and who was ignored at Kansas City; the white-haired Grecian-cast Gorman, who has been patiently biding his time for eight years and is still young in the hope of the presidency; the gruff and uncompromising Smith, of New Jersey, the exponent of Cleveland, and unrelenting foe of every shade of radicalism; James M. Guffey, the coal millionaire of Pennsylvania and proprietor of his party in that state, who has also waited for Bryan to subside; Henry G. Davis, the picturesque and rugged millionaire ex-senator from West Virginia, who was returned to politics at 53 years of age to celebrate the return of the party to "sanity"; William F. Sheehan, of New York, who bolted Bryan and is managing Parker, and all the rest of the list of "reorganizer" leaders who have held such pultry roles in party management for the past eight years.

Of new figures who will be potent factors, there are many. John Sharp Williams, the trenchant, humorist, brilliant Democratic leader in the lower house of congress, will be prominent in the coming convention. His nomination for vice president is not one of the remotest of the possibilities of that gathering. He has been the issue maker in the session of congress which has just closed, and it is the judgement of both parties that he has done his work better than any predecessor in that position in many years. Williams is a little man with frizzy brown hair that overhangs his forehead, a dark brown mustache, and no disposition to give himself the airs which are usually associated with a southern statesman. He is distinctly a new type of southern leader.

ENDEAVOR CONVENTION.

Those who attend the state Christian Endeavor convention in Springfield July 7-19 may count themselves fortunate in view of the excellent program that has been prepared. Among all the speakers none will be more cordially welcomed than the general secretary of the union society, Von Ogden Vogt, whom we may claim for an Illinois man, for his home was in this state before he went to Reebolt college, Wisconsin, from which he graduated in 1891. He is certainly a western man and his interest in Endeavor work in Illinois has been shown recently by his visits throughout the state. From Cairo to Galesburg all who saw him and heard him speak while on that tour will want to meet him again in Springfield at the convention.

When he accepted the invitation of the trustees of the union society to become its secretary and took up the work about a year ago of John Willis Baer those who had not heard before of this young man wondered what manner of man had been chosen and hoped he would make a worthy successor to one whom all had learned to love and honor. His work has proved the wisdom of the choice. He has won the respect and love of those who did not know him before and Illinois societies count it one of the greatest privileges to be enjoyed at the coming convention that they will have with them the general secretary of the union society, Von Ogden Vogt.

Many who know him only through his timely and helpful writings in the Endeavor World will be glad to see him. They will speak and enjoy the closer friendship to be gained by these means with one so cordially sympathetic with the motto of the Springfield union society, "Honor to Christ."

FOR THE HOUSEWIFE

Would You Be Swift?
The "health" craze, which has been started of late years by the insistent demands of hygiene and the disconcerting discoveries of scientific and medical men, now includes a new "cure" for the matron with a tendency to embonpoint. This is nothing less than a daily practice of the ancient art of "skipping." Every morning the lady who values her personal appearance must take her skipping rope and solemnly jump the allotted number of times, breathing slowly and regularly as she goes through the performance. The girl still in the nursery and schoolroom is also being encouraged to revert to this old fashioned amusement, which "has been found to be beneficial in every way to the health."

Way to Cook Vegetables.
If vegetables show the slightest trace of wilt drop them in cold, clear, unsalted water for half an hour before cooking. All vegetables should be dropped into water that is boiling briskly. To be for a moment in lukewarm water or water that is just coming to a boil means they will become soggy and stringy.

For all green vegetables add a teaspoon of salt to every half gallon of water. All vegetables grown underground, such as potatoes and turnips, should be boiled in unsalted water, as salt makes them tough and hard.

English Potato Salad Dressing.
Here is the old fashioned potato salad dressing used in England with sorrel and onion salad: Boil and mash two large potatoes, season with salt, pepper and a little mustard and a teaspoonful of sugar. Stir into the potato gradually at first, as in mayonnaise, three tablespoonfuls of oil and a tablespoonful of vinegar. Beat until the dressing is like cream. Add at the last half a cupful of cream. This is practically the recipe immortalized in Sidney Smith's famous rhyme.

A Corner Washstand.
If your bedroom has not a stationary washstand in it there are only two things to do, perform all your ablutions in the bathroom or buy a screen unless indeed you have a brilliant idea like the one in the illustration.

The clever woman who evolved this simply had two corner shelves put up, one about a foot above the other. On the top one was a fanciful wooden support very decorative in effect.

With matting or leather paper, according to the style of the room, she

A DECORATIVE CORNER.
screened the wall above the stand. A handsome molding framed this in, and the little shelves were both useful and ornamental.

To the lower shelf is tacked a valance of cretonne or denim to match the color of the room furnishings, and a towel rack at the side completes a washstand that would be no blot on any dainty bedroom.

Rose Potpourri.
If a scent of the orient is desired the following mixture of dried flowers and ground spices will please: Place in a rose jar one pound each of whole rose leaves and dried lavender, one-half pound of coarse crushedorris root and two ounces each of cinnamon. Remove the cover occasionally for ten minutes, and the air of the room will be perfumed deliciously.

Boiled Egg For an Invalid.
Break an egg into a china cup or small porcelain poringer and place the cup in a saucepan of hot water (175 F.). As soon as the white begins to cook stir from the sides of the cup, using a silver spoon. When the white is of a jelly-like consistency break the yolk and mix it with the white. Add butter and salt and serve in the cup in which the egg is cooked.

APPLE CROP OF ILLINOIS.

Quincy, June 20.—The bright prospects for a good crop of apples at the opening of the present season, caused a general confidence that there would be almost a year of jubilee among apple growers. Not for many years was there such a good setting of buds; the year of the great bumper crop, 1896, did not compare with it. Unfortunately happened, however, that the bloom came in a period of cold rainy days, and under such conditions development was prevented. With information received from many trustworthy sources, there will be a large yield of apples in some orchards and comparatively none in others, and it can be safely estimated that the average yield will be less than one-half crop, and even this condition may have to be modified before harvest time. There has been, however, a large number of apple trees planted in the middle states during the last few years, and thousands of acres of young orchards will come into bearing this season, hence, should the yield be even one-half crop in Illinois, there will be an abundance for home use and foreign shipment.

MACKERAL BRIGADE

Will Be Made One of the Features of the Fourth of July Celebration.

Great interest is being manifested in the Mackeral brigade which promises to be one of the features of the Fourth of July celebration.

Three prominent merchants of the city have already agreed to take part in the parade and if others will only follow suit, the brigade will be a howling success. Merchants are urged to have a representative in the parade as it will be a splendid means of advertising and will at the same time assist the committee in arranging one of the best features of the day's program.

It is going to be a grand celebration and no mistake. It has been several years since anything like such a celebration has ever been contemplated. The day will be full of one complete round of pleasure.

Free shows will be on every hand while two daring balloon ascensions will take place, one in the morning and one in the afternoon.

The display of fireworks in the evening will be worth coming miles to see and the heavens will be illuminated far and wide by the brilliancy of the mammoth explosives.

The town will be alive with excitement from the time the first midnight gun is fired until the grand pyrotechnic display is concluded in the evening. Let every one get in the spirit and aid in making the Fourth of 1904 one that will live in memory.

VISITORS WERE EASY

Lanesville Team Was Defeated at West Side Park Sunday by Score 6 to 1.

The Jacksonville base ball team defeated Lanesville Sunday afternoon at the west side park in one of the best contests seen on the grounds this year. The locals played an errorless game, and showed that when up against it they can play league ball. As usual when there is a good game, there was only a small crowd present.

The visitors evidently were sure of winning, as they brought over a large number of rooters who backed their team for all they were worth. At the start the locals were scared and put up a star game. Baker was on the slab for the home team and showed up in his usual good form. Hackett did a good part of the work with the stick getting three straight hits. Schumm has become a favorite with the bleachers and receives a round of applause every time he is up. Hagel made a pretty catch of a line hit in the fifth.

The visitors had a good bunch of players but they were simply outclassed. They started out by making two hits and one run in the first inning. This run, the only one made by them, was allowed by two passed balls by Magill. Jacksonville was shut out in the first and prospects were bright for the visitors but their pride was dragged in the dust in the second, when after being blanked, Hackett led off with a single. Schumm followed with a two-bagger, scoring Hackett. Baker struck out. Hanchen made the circuit on a bunt and a wild throw to first. Schumm scoring also. The visitors continued to draw blanks the rest of the game while Jacksonville made two in the third and one in the fifth. The game was free from all disputes and wranglings. The score:

THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send for a sample to The Herpicide Co., Detroit, Mich.

Piles Can Be Cured

By Internal Treatment

Without the Aid of Narcotics or the Knife

You who suffer with piles know what a glorious boon it would be to you to be absolutely and painlessly cured. You know from actual experience that salves, ointments and other local applications do not cure. You may get relief, but you keep on suffering.

There is a cause for every human ill. Remove the cause and you cure the complaint. Piles have two distinct causes: First, congestion of the liver; second, constipation resulting from poor digestion.

Dr. Perrin's Pile Specific

The Internal Remedy

absolutely removes these causes by increasing the flow of digestive juices in the stomach, and relieving the congestion of the liver. It is a tonic for the entire bowel system and helps each particular member of this system to work easily and naturally.

You simply take a teaspoonful of this positive, internal remedy three times a day before each meal. It is pleasant to the taste and absolutely free from opium, cocaine or other narcotics. It is not a palliative or temporary remedy; it produces a positive, radical and lasting cure.

Dr. Perrin's Pile Specific is sold under an

Absolute Guarantee

to return any case of blind, bleeding, itching or internal piles, no matter how chronic or severe, if it may be cured by this remedy. If it cannot be cured, a full refund of the money paid for the same will be made. Dr. Perrin's Pile Specific can be tried in a trial case, which is sent under a stamped agreement to refund the money if it does not cure the case. The remedy is sold in a box, which is sent to you free of charge.

BOGUS DOCTOR'S PRANK

"Dr. Calder's" Glee Over His Skillful Swindling.

SAYS HIS PATIENTS WERE SO EASY

"It Was a Shame Not to Take the Money," Says the Man Who Applied Porous Plaster Treatment to Rich American Business Men—Made Victims Life Face Downward.

Maximilian Muller, the bogus "Dr. O. F. Calder," who swindled many rich men by his porous plaster treatment, admitted his guilt in the Grand street court, Brooklyn, the other day, says the New York American.

"I'm guilty; there is no use in denying it," he said, and then laughed merrily, but quietly, as he recalled the predicaments in which he had left so many of his victims.

"Americans are so easy," he said, "that it is a shame not to take their money. D. Z. Mark exists in other places besides the funny pages of the newspapers."

Waiving preliminary examination Muller was held in bonds of \$1,000 on a charge of grand larceny. The officers who made the arrest escorted him to police headquarters, where he posed for a picture.

"This is where E. Z. Mark triumphs," he said.

In his free and easy way Muller told the court how he swindled his victims by the porous plaster treatment and seemed to feel that it was all a good joke. His story was filled with maxims concerning the gullibility of the American business man.

"Why," he said, "I was kept constantly laughing at my own tricks. When I came to this country from Germany I was an orderly at Bellevue, and I then discovered the weak point in the armor of the average man. Why is it that a man is pointed out as a doctor? Because of his air of authority and dignity. I never was a doctor, only posed as one and then posed successfully."

"All the time I was at Bellevue I studied men and women closely and made it my business to find out their business interests. Then I would approach a man under pretense of allowing him to make a great sum of money off me. This would flatter his pride, and he would think that I was the easy mark."

"Having mastered my man thoroughly in the presence of the man's wife I would note a few symptoms and with grave alarm refer to his heart action. The wife usually listening would step forward and say, 'That's right, John, you'd better have the matter attended to by the doctor.'"

"When I said, 'Take off your clothes, my man,' I felt like going out on the porch and having a good hearty laugh. Imagine for yourself the victim taking off his clothing in a half hearted, reluctant way."

"Then, when I said, 'Lie down on the bed and put your face in the pillow,' it seemed too funny to see the way even the shrewdest man would obey. Then, with all his clothing in my hands, I had leisure to laugh as much as I wanted to and rifle the clothing. My medicine case was usually deposited on the dresser, and everything I wanted could be packed into it nicely. "I often wondered why some of the victims didn't look up and catch me. What would they have done? They must chase me naked or busy themselves dressing while I was making a safe retreat. But I always worked the game of the bandages. The man must lie with the plasters on his back and his face in the pillows until I went to a nearby drug store and bought bandages. Of course I never returned, and an hour or perhaps two or three hours after I left the victim became suspicious, got up and dressed himself and hid away to the police station, forgetting all about his illness."

And Muller snuggly went to his cell.

Belief of Tibetans

The Tibetans do not believe that the British could conquer them, says the New York Globe. It is a curious fact that traditions of a war of some kind are still kept alive by the Tibetans. They manufacture large quantities of gunpowder, bows and arrows, swords and spears, and set great store by their physical courage. They would rather be considered robbers and thieves than cowards. One sees in Gyangtse gangs of gigantic men thumping their chests, slapping their thighs and exclaiming on the rabble to clear out of the way, as they fear nobody. However, they quickly make way themselves for an officer or a sepoy belonging to the British mission. The wounded Tibetans discharged from the English field hospital consider themselves great heroes and have nothing but contempt for their comrades who run away. As a matter of fact, most of their own wounds were in the back.

Legendary Heroes of Japan.

The renown of the Japanese for courage was as remarkable in Marco Polo's day as it is in the present, says the Hour Glass. He narrates the story of an invasion of the country by the forces of the Khan of Tartary. A Japanese army of 30,000 men was besieged in a tower. Refusing to surrender, they fought until all but eight of them were killed. On these eight—travelers' wonders must creep in—it was found impossible to inflict any wound. "Now, this was by virtue of certain stones which they had in their arms, inserted between the skin and the flesh. And the charm and virtue of these stones was such that those who wore them could never perish by steel." They were the first beaten to death with clubs.

Miss Rose Peterson, Secretary Parkdale Tennis Club, Chicago, from experience advises all young girls who have pains and sickness peculiar to their sex, to use Lydia E. Pinkham's Vegetable Compound.

How many beautiful young girls develop into worn, listless and hopeless women, simply because sufficient attention has not been paid to their physical development. No woman is exempt from physical weakness and periodic pain, and young girls just budding into womanhood should be carefully guided physically as well as morally. Another woman.

Miss Hannah E. Mershon, Collingswood, N.J., says:

"I thought I would write and tell you that, by following your kind advice, I feel like a new person. I was always thin and delicate, and so weak that I could hardly do anything. Menstruation was irregular."

"I tried a bottle of your Vegetable Compound and began to feel better right away. I continued its use, and am now well and strong, and menstruate regularly. I cannot say enough for what your medicine did for me."

—\$5000 forfeit if original of above letter proving genuineness cannot be produced.

Lydia E. Pinkham's Vegetable Compound will cure any woman in the land who suffers from womb troubles, inflammation of the ovaries, and kidney troubles.

A LITTLE NONSENSE.

Why the Sneering Remarks Did Not Bother the Clergyman.

A clergyman who was traveling stopped at a hotel much frequented by wags and jokers.

The host, not being used to having a clergyman at his table, looked at him with surprise. The guests used all their rillery of wit upon him without eliciting a remark.

The clergyman ate his dinner quietly, apparently without observing the gibes and sneers of his neighbors.

One of them at last, in despair of his forbearance, said to him: "Well, I wonder at your patience! Have you not heard all that has been said to you?"

"Oh, yes; but I am used to it. Do you know who I am?"

"No, sir."

"Well, I will inform you. I am chaplain of a lunatic asylum. Such remarks have no effect upon me."—Short Stories.

MATHIAS & LLOYD.

(By Associated Press.)

Chicago, June 20.—Wheat market opened about steady, September being 1/2c lower to a shade higher at 79 1/2-79 3/4c. With active general demand and only light offerings, the sentiment became quite strong. The weather in the northwest was unfavorable for harvest. Reports were reported in eastern Nebraska and Kansas with predictions of more showers. The foreign situation was also bullish. Liverpool cables were higher and amount on passage showed a decrease of over two and a half millions. Reports indicate the Roumanian crop will be exceedingly small. Advances from the north-west claiming serious damage will result if no weather continues were a late factor. September closed 1/2c higher, July up about 1/2c.

Corn—Only moderate trade, about all local with tone rather steady. Professions and for feeder were on the buying side at the start, influenced mainly by action in wheat. Fine weather, present and prospective, and larger receipts were bear factors. Early buyers turned sellers on announcement of 677 cars for tomorrow. Southwestern markets were firm. Country acceptances small. The close showed slight gains.

Oats—Early prices were down 1/4c with other grains and on steepness and local selling. Later recovery by early sellers and rally in other grains caused strength. The close was fairly strong, prices up 1/4c.

Flour, bbls	17,000	16,000

FINANCIAL MARKET.

New York, June 20.—An important volume of business was done in the stock market to day, but the tone was plainly firm and confidence over the prospect for

values was thereby fostered. News bearing upon values was slight, but in the absence of threatening developments and with protection afforded to Southern Pacific there was no trend pressure to sell. Confidence in condition of crops was unimpaired, although there was some complaint of rains in the harvest region which made itself felt in the wheat market. Cash reserves and especially gold holdings are now well above any previous record. Satisfaction over this showing has its reservations as to its index of idle trade conditions and as to responsibility for high interest rates on deposits paid by the New York banks in effecting the result, but it instills freedom from all pressure of securities on the market from necessity of realizing ready cash. Closing quotations:

IF YOU HAVE DYSPEPSIA READ THIS.

The old way of taking pepsin, bismuth, etc., to cure dyspepsia is all wrong. They may be put up in tablets or in liquids, the result is just the same. The object is to create artificial digestion, but this does not make a cure. Stop taking the pepsin, etc., and have your dyspepsia or indigestion back again. People use cocaine or opium for nervous troubles and sick headache, it does not cure. Stop taking the drug and the pain and distress return. The only Common Sense Method is to drive out of the system the cause of dyspepsia and sick headache by cleaning the stomach and bowels and at the same time using a medicine that will act upon the liver. This forces through the glands of the stomach the digestive fluid that nature intended. In this way you cure dyspepsia. The medicine that cures dyspepsia by this method is called Dr. Gunn's Improved Liver Pills. Druggists sell these pills at 25c a box. It only takes one pill for a dose. For sale by Lee P. Allcott.

When Summer Time Is Here.

When the flies are in the butter and the milk curds into cheese.

When you try to change the clothes that you wanted on the breeze.

When you worry that you'll have a sweetie all the while.

Heavy Freight Train Crashes Into Passenger Engine—Damage Not Great—Local Passenger Delayed 4 hours.

The heavy C. B. & Q. freight engine No. 1223 crashed into the rear of the light J. & St. L. passenger engine No. 1373 about 4:40 Monday morning on the curve just below the East State street crossing. Will Patterson, hostler of the J. & St. L., was preparing the passenger engine for the regular run leaving here at 6:30 a. m. He was backing off the sliding onto the main track to get water when through freight No. 20 crashed into the rear, severely damaging the tender and cab. The freight engine was in charge of Engineer Shears and Fireman Oldfield, who had orders for a clear track. Patterson evidently had no thought of a possible train. Neither engine left the track, but three coal cars were ditched, one of which was totally demolished. The pilot on the freight engine was badly wrecked and it was taken to Beardstown for repairs. The wrecking crew from Beardstown arrived soon after the accident and cleared up the track. The 6:30 passenger was delayed about four hours.

EAGLES WENT TO LITCHFIELD

Local Aerie Assists at Installation of New Lodge—Special Train Over the J. & St. L.

About seventy-five members of the local Aerie of Eagles went to Litchfield Sunday on a special train over the J. & St. L. leaving this city at 9:30. At Virden a party of 100 joined the crowd, accompanied by a band of eighteen pieces and an orchestra of eight pieces. At Girard another delegation of perhaps seventy-five was taken on and all arrived safe in Litchfield about noon.

The exercises opened with a grand parade at 1:30, with about 800 in line. The officers were conveyed in four horse carriages, and the Litchfield band, together with the Virden organization furnished inspiring music.

The work of organization was done in the K. of P. hall. There were something over 150 candidates initiated, the work being done by the team from this city assisted by members from St. Louis and some of the state officers. The installation officers were B. F. McGinty, state deputy and Dr. C. Schultz, grand worthy state physician.

After the installation a magnificent banquet was enjoyed in the Odd Fellows' hall, there being plates for 400. An invitation was extended by the St. Louis members to the national Eagles' celebration at the world's fair, Aug. 24. Highland park has been rented for the 23rd and 24th of August for the entertainment of visiting Eagles, and a monster parade will be held within the fair grounds.

The special left Litchfield for this city at 9:30 arriving here at midnight. Besides the delegations already mentioned members were in attendance from Mattoon, Pana, East St. Louis and Springfield. Very noticeable among the delegations was the Virden crowd. They had the largest

turn-out of any city, and were full of enthusiasm for their lodge.

The local committees were as follows: Excursion—T. W. Endsley, T. W. Allen and E. M. McGruder. Arrangements—Thos. Russell, T. W. Endsley, T. W. Allen, John Hicks, John Boland and Chas. Tompkins.

W. H. McCarty deserves credit as the one who was instrumental in arousing interest in the organization of the lodge at Litchfield.

AT LIBERTY HALL

Interesting Exercises Mark the Close of the Catholic High School—Fine Program Given.

The public examination of the pupils of the first year of the Catholic high school was held in Liberty hall last evening. The disagreeable nature of the weather kept away many who would otherwise have been present.

In connection with the examination a delightful and varied program was given by the John Boyle O'Reilly club, the literary organization of the first year students. The first number was a piano duet, "Rondo," (Mohr), first piano Margaret Ring, second piano Barbara Schirz. The composition was given an excellent rendition, and gave evidence of musical training of a high order.

Frank Robinson then gave a sketch of the life work of John Boyle O'Reilly. He told of his checkered career, and of his many different fortunes as a poet and journalist. He was a man just and firm in purpose, a loyal friend and a generous foe, and won for himself an immortal fame as an editor, lecturer and poet.

The speaker then in a few well chosen words presented the club to the audience and extended greetings, bespeaking their indulgence during the presentation of the program.

Miss Rose Longergan then read a well prepared essay on "The Church and the Catacombs." The paper was interesting and well read and held the closest attention of the audience.

Rev. Fr. Crowe then with fitting words explained the nature of the examination to be conducted and told of the work of the school, under the capable instruction of Rev. F. F. Formaz and Sister Regina. The work of the first year pupils in Latin, English, history and algebra is under the direction of Sister Regina, and that she is well qualified for the trust and has done her duty faithfully and well was evidenced by the work of the students.

First came the examination in Latin, comprising a review of the declensions, conjugations and easier syntactical constructions. The matter was fully covered by the instructor, and the manner in which answers were given showed a good understanding of the subject. This was followed by a short examination in English, comprising especially figures of speech and classical literature.

The audience next enjoyed a delightful little monologue, "The Studious Girl," given in a charming manner by Miss Bessie Sweeney.

Miss Mildred Grant read an essay based on O'Reilly's poem beginning, "Our life a harp is, with unnumbered strings." The paper was prettily conceived and was given in a graceful manner.

The examinations in history and algebra were then held. In history the questions covered Roman history from 753 B. C. to 800 A. D., including Rome under kingly rule; the republic; the empire; Christianity and the empire; decay of the empire; triumph of Christianity; the papacy. The algebra test was searching and the result showed how well the students were prepared in the subject.

A piano solo, "Morceau de Salon," (Drumheller) by Catherine O'Brien, called for an encore, which was gracefully given. It was followed by a comprehensive essay on "The Church in the Philippines," by Miss Margaret Ring.

Miss Rose Sheehan recited in a beautiful manner "Lead Kindly Light," after which Miss Agnes O'Meara read the constitution and rules of the John Boyle O'Reilly literary club.

Rev. Fr. Crowe then presented the members of the class with the cards of promotion to the second year of high school work, complimenting them in a happy manner on their excellent work during the past year.

The program was ended with a chorus number, "The Minuet" (Woolf) by the members of the class. To night at Liberty hall will be held the examination of the second year class, with a program by the Brownson club.

Horseshall Sauce.

A delicate horseshall sauce to serve with boiled beef is made by beating with a whisk half a cupful of sweet cream. As the cream stiffens add vinegar until about three tablespoonfuls have been used. Season with salt and white pepper and add last of all two tablespoonfuls of freshly grated horse-radish.

To Prevent Cream Spots.
